

Standard Panel Range

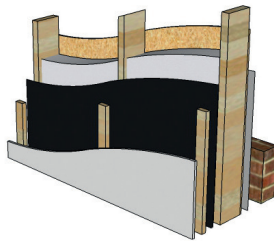

U = 0.19

EXTERNAL -
Brickwork with 50mm cavity

- Reflective breather membrane
- 9mm OSB
- 140mm studwork / 120mm insulation
- Vapour control layer
- 25mm service battens

INTERNAL - 12.5mm plasterboard + skim

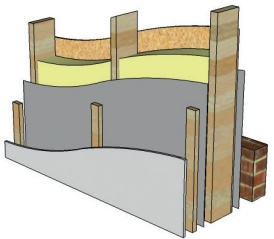

U = 0.15

EXTERNAL - Brickwork with 50mm cavity

- Reflective breather membrane
- 9mm OSB
- 140mm studwork / 120mm insulation
- Reflective vapour control layer
- 25mm service battens

INTERNAL - 12.5mm plasterboard + skim

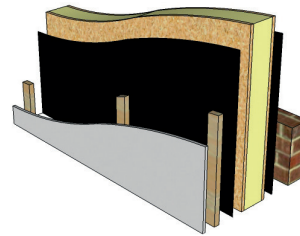

U = 0.19

EXTERNAL -
Brickwork with 50mm cavity

- Breather membrane
- 142mm SIPs panel
- Vapour control layer
- 25mm service batten

INTERNAL - 12.5mm plasterboard + skim

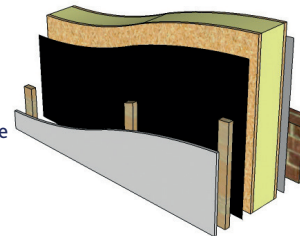

U = 0.15

EXTERNAL -
Brickwork with 50mm cavity

- Reflective breather membrane
- 172mm SIPs panel
- Vapour control layer
- 25mm service battens

INTERNAL - 12.5mm plasterboard + skim

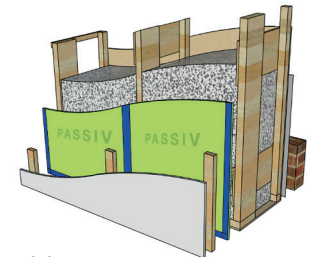

U = 0.11 Breathable

EXTERNAL -
Brickwork with 50mm cavity

- Reflective breather membrane
- Breathable fibre-board sheathing
- Breathable/natural insulation
- Larsen stud wall make-up
- Vapour-check OSB with air-tight tapes at joints
- 25mm service battens

INTERNAL - 12.5mm plasterboard + skim

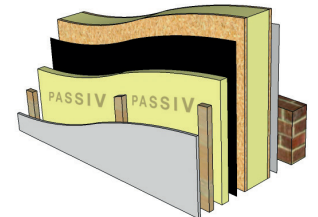

U = 0.11 SIPs

EXTERNAL -
Brickwork with 50mm cavity

- Reflective breather membrane
- 172mm SIPs panel
- Vapour control layer
- 40mm Insulation layer – site fitted
- 25mm service battens – site fitted

INTERNAL - 12.5mm plasterboard + skim

We can accommodate any U-value either as TIPs, SIPs or Passiv solutions.
Please discuss your project-specific requirements with the team.

We are specialists in design, manufacture and installation of factory insulated timber-frame, SIPS, Passivhaus & low energy buildings nationwide – including Glulam and oak features.

Timber-frame & SIPS – systems for fully engineered offsite solutions

Passiv range – for the most thermally efficient projects including U-values down to less than 0.1 W/m²K

Thermal Envelope – wall and roof solutions allowing vaulted spaces, including hybrid structures

Design Services – in-house resources for design & engineering

Floor Cassettes & Metalweb Floor Joists – openweb joists simplify MVHR ducts runs and services

Roofs – a choice of trussed rafter systems or factory insulated roof cassettes, insulated to your specification

Innovation – it's in our name

For all your Timber Engineering solutions www.timberframe.co.uk
